

REGIONS Literacy Card 5

The Prime Meridian is an imaginary line that separates the Western Hemisphere from the Eastern Hemisphere. The continent of North America, including California, is in the Western Hemisphere.

REGIONS Literacy Card 6

A tributary is a smaller river that joins a larger river.

REGIONS Literacy Card 7

A metropolitan area is a large city together with nearby cities and suburbs.

REGIONS Literacy Card 8

Earthquakes occur when layers of rock deep in Earth move. The movement occurs along faults, or cracks, in Earth's surface.
